SUBJECT INDEX*

A

Abdomen, exploration of (Degenshein), 721
procedure for taking split-thickness skin grafts from (Walker, Jackson, and Zawacki), 563

Abdominal aorta, changes in sexual function following operation on (May, DeWeese, and Rob), 41
wall, anterior, desmoid tumors of (Brasfield and Das Gupta), 241

Acid, fecal bile, cholesterol pool size, and turnover rate, changes in, and sterol excretion after partial ileal bypass in hypercholesteremic patients (Moore, Frantz, and Buchwald), 98
secretion, gastric, in rat, effect of small bowel resection on (Caridis, Roberts, and Smith), 292

Adhesives, cyanoacrylate, as topical hemostatic aids, clinical use in seven combat casualties (Collins et al.), 260
experimental evaluation on liver wounds in dogs (Collins et al.), 256

Allografts and autografts, canine jejunal, absorptive function in (Cohen et al.), 440

Allotransplantation, experimental, of preserved pancreas and duodenum (Idezuki, Goetz, and Lillehei), 485

Anastomosis, telescopic internal mammary-coronary, ventricular function, coronary flow, and oxygen consumption after (Barner et al.), 127

Aneurysm of vein of Galen in infancy (Verdura and Shafron), 494

Angiographic patterns, aortoiliac, associated with femoropopliteal occlusive disease: significance in reconstructive arterial surgery (Haimovici and Steinman), 232

Angiography of regenerating human liver after extensive resection (Bengmark, Engevik, and Rosengren), 590

Antilymphocyte globulin, heterologous, improvements in preparation of with special reference to absorption and diethylaminoethyl cellulose batch production (Kashiwagi et al.), 477

Antisepsis and asepsis: germ theory in America (1867-1900) (Earle), 508

Antral gastric mucosa, structure of (Ferguson), 280

Aorta, abdominal, changes in sexual function following operation on (May, DeWeese, and Rob), 41

Aortic bifurcation grafts, infected, use of bilateral axillofemoral bypass prosthesis for management of: report of case with extended follow-up (Urdaneta et al.), 753
cross-clamping, metabolic and tissue blood flow changes resulting from (Lim, Bergentz, and Lewis), 304
regurgitation, quantification with catheter tip velocitometer (Nolan et al.), 876
surgery, technical aid in: temporary transection of left renal vein (Szilagyi, Smith, and Elliott), 32

Aortoiliac angiographic patterns associated with femoropopliteal occlusive disease: significance in reconstructive arterial surgery (Haimovici and Steinman), 232
and femoropopliteal endarterectomy, experiences with (Humphries, Young, and McCormack), 48
occlusion, high, surgical treatment of (Chavez et al.), 757

Aplasia, partial, of pancreas, meconium ileus secondary to: report of case (Auburn et al.), 689

Arterial embolectomy, analysis of morbidity and mortality from (Stallone et al.), 207
implants, infected, management of (Najafi et al.), 539
outflow, distal, and patency of femoropopliteal reversed saphenous vein grafts, quantitative correlation with intraoperative flow and pressure measurements (Mundth et al.), 197
prosthesis, thin, porous, knitted: experimental data and early clinical assessment (Sauvage et al.), 78
reconstructive surgery, significance of aortoiliac angiographic patterns associated with femoropopliteal occlusive disease in (Haimovici and Steinman), 232

Arteriovenous fistula of lung: long-term results in eight operative cases (Biancalana, Actis-Dato, and Ofoegbu), 567

Artery(ies), coronary, congenital fistula (McNamara and Gross), 59
resection and replacement by blood conduit (Lary), 584
internal carotid, operation for acute completed stroke due to thrombosis of (Rob), 862
orbital, giant strawberry nevi of: treatment by ligation (Walsh), 659
pulmonary, constriction (banding): report of 146 cases (Stark et al.), 808
renal, hypertension and fibromuscular dysplasia of (Foster et al.), 157
management of embolic occlusion of (Thomas, Faulconer, and Lansing), 576
surgical treatment of occlusion of innominate, common carotid, and subclavian (Crawford et al.), 17

*January, pp. 1-226; February, pp. 227-406; March, pp. 407-566; April, pp. 567-722; May, pp. 723-872; June, pp. 873-1032.

Artery(ies)—Cont'd
vitelline, causing small bowel obstruction in adult (Prust and Abouatme), 716
Atresia of colon (Coran and Eraklis), 828
congenital, and stenosis of jejunum and ileum (deLorimier et al.), 819
esophageal, and tracheoesophageal fistula, story of (Ashcraft and Holder), 332
Atrial myxoma (Bigelow, Herr, and Starr), 247
Asepsis and antisepsis: germ theory in America (1867-1900) (Earle), 508
Autografts and allografts, canine jejunal, absorptive function in (Cohen et al.), 440

B

Bacterial species, single or polymicrobic in origin: surgical infection (Robson and Heggers), 608
Baffes' procedure, previous, operative technique for transposition of great vessels with (Yao and Mustard), 873
Benign cystosarcoma phylloides (giant fibroadenoma): report of case in 13-year-old girl (Simpson, Van Dervoort, and Lynn), 341
Bile acid, fecal, cholesterol pool size, and turnover rate, changes in, and sterol excretion after partial ileal bypass in hypercholesteremic patients (Moore, Frantz, and Buchwald), 98
duct, common, calculus, nidus of: silk (Sigler and Sahler), 276
Biliary endoscopy: appraisal of its value in biliary lithiasis (Schein), 1004
pressure, new technique for experimental, repeated, long-term measurement of (Williams and Huang), 454
Blindness, transient monocular, through collateral pathways (Ehrenfeld and Lord), 911
Blood pressure, ankle, and calf blood flow, relationship in patients with intermittent claudication (Sumner and Strandness), 763
flow, coronary, and hemodynamics with counterpulsation (Dormandy, Goetz, and Kripke), 311
tissue, and metabolic changes resulting from aortic cross-clamping (Lim, Bergentz, and Lewis), 304
transducers, small epoxy electromagnetic, modification for ease of application (Wangensteen, Perry, and Madden), 860
Bloodless hepatic resection with internal caval shunt (Timmis, Rosanova, and Larkin), 109
Bony pelvis, pelvic exenteration combined with resection of segments of (Brunschwig and Barber), 417
Bowel, small, obstruction in adult, vitelline artery causing (Prust and Abouatme), 716
resection, effect on gastric acid secretion in rat (Caridis, Roberts, and Smith), 292
Bypass, partial ileal, in hypercholesteremic patients, changes in cholesterol pool size, turnover rate, and fecal bile acid and sterol excretion after (Moore, Frantz, and Buchwald), 98

C

Calculus, common bile duct, nidus of: silk (Sigler and Sahler), 276
Cancer(s), gastric: success of early detection by coordinated program of periodic gastric mucosal x-ray studies and gastroscopic and gastric camera observations (Nakayama), 227
of digestive tract, trends in (Cutler), 740
Cardiac hemodynamics and natural history, influence on selection of patients for embolectomy and inferior vena cava ligation: pulmonary embolism (Wechsler et al.), 182
long-term assist device, initial studies of left heart bypass as (Stanley), 649
Cardiogenic shock, lethal, prevention in epinephrine-tolerant dogs (Dietzman et al.), 623
Cardiovascular impermeable velour-lined prostheses, production of cellular linings in: growth from implanted tissue fragments (Ghidoni et al.), 70
surgery, management of postoperative renal failure after (Porter and Starr), 390
Carotid, common, innominate, and subclavian arteries, surgical treatment of occlusion of (Crawford et al.), 17
Caval shunt, internal, bloodless hepatic resection with (Timmis, Rosanova, and Larkin), 109
Cecal diverticulitis: report of 16 cases and review of literature (Asch and Markowitz), 906
Cellular, linings, production in impermeable velour-lined cardiovascular prostheses: growth from implanted tissue fragments (Ghidoni et al.), 70
Cervical ectopic thyroid tissue, midline, report of 2 cases (Meyerowitz and Buchholz), 358
Childhood pneumonectomy, some late sequels of (Šerý, Ressl, and Vyhnálek), 343
Cholangiography, operative: 1,000 cases (Schulenburg), 723
Cholecystitis, acute, common duct exploration in: review of 100 consecutive cases (Hilton and Griffin), 269
Choledochal cyst in children (Mahour and Lynn), 967
congenital, surgical management of (Lindenauer and Lavanway), 972
Cholesterol pool size, turnover rate, and fecal bile acid, changes in, and sterol excretion after partial ileal bypass in hypercholesteremic patients (Moore, Frantz, and Buchwald), 98
Claudication, intermittent, relationship between calf blood flow and ankle blood pressure in patients with (Sumner and Strandness), 763
Colon, atresia of (Coran and Eraklis), 828
substitution for esophagus and stomach in two-year-old boy, lye burn requiring total gastrectomy and (Shaw, Garvey, and Miller), 837
transplant—esophageal reconstruction in two brothers with epidermolysis bullosa (Absolon et al.), 832

Colon—Cont'd
wound healing in: comparison of inverted and everted closures (Trueblood et al.), 919
Coma, postoperative atetanic hypocalcemic: report of case (Kreisler, Dinbar, and Tulcinsky), 916
Common duct exploration in acute cholecystitis: review of 100 consecutive cases (Hilton and Griffin), 269
Coronary artery fistula, congenital (McNamara and Gross), 59
resection and replacement by blood conduit (Lary), 584
blood flow and hemodynamics with counterpulsation (Dormandy, Goetz, and Kripke), 311
flow, ventricular function, and oxygen consumption after telescopic internal mammary-coronary anastomosis (Barner et al.), 127
Counterpulsation, hemodynamics and coronary blood flow with (Dormandy, Goetz, and Kripke), 311
Cross-clamping, aortic, metabolic and tissue blood flow changes resulting from (Lim, Bergentz, and Lewis), 304
Cyanoacrylate adhesives as topical hemostatic aids, clinical use in seven combat casualties (Collins et al.), 260
experimental evaluation on liver wounds in dogs (Collins et al.), 256
Cyst(s), choledochal, in children (Mahour and Lynn), 967
congenital choledochal, surgical management of (Lindenauer and Lavanway), 972
nonparasitic, of liver, report of three cases (Belcher and Hull), 427
Cystic duct, short or absent (Bogardus and Lundmark), 274
Cystosarcoma phylloides, benign (giant fibroadenoma): report of case in 13-year-old girl (Simpson, Van Dervoort, and Lynn), 341

D

Desmoid tumors of anterior abdominal wall (Brasfield and Das Gupta), 241
Dextran, clinical, in thrombophlebitis, prospective double blind study of (Bernard et al.), 191
low molecular weight, reduction of gastric ulceration and acid secretion by (Rudick et al.), 470
uses in surgery: current evaluation (Atik), 548
Diathermy, cutting, use in laparotomy: transection of rectus abdominis (Jones), 507
Diethylaminoethyl and absorption cellulose batch production, improvements in preparation of heterologous antilymphocyte globulin with special reference to (Kashiwagi et al.), 477
Digestive tract, trends in cancers of (Cutler), 740
Digital readout unit, use for rapid determination of myocardial stimulation thresholds (Harris et al.), 10
Dilatation, acute gastric, pathophysiologic mechanisms of shock in (Passi, Kraft, and Vasko), 298
Diverticulitis, cecal: report of 16 cases and review of literature (Asch and Markowitz), 906
Double blind study of clinical dextran in thrombophlebitis (Bernard et al.), 191
Duct, common, exploration in acute cholecystitis: review of 100 consecutive cases (Hilton and Griffin), 269
cystic, short or absent (Bogardus and Lundmark), 274
Duodenoscopy, fiberoptic (Takagi et al.), 597
Duodenum and pancreas, preserved, experimental allotransplantation of (Idezuki, Goetz, and Lillehei), 485
Dysplasia, fibromuscular, and hypertension of renal arteries (Foster et al.), 157

E

Embolectomy, arterial, analysis of morbidity and mortality from (Stallone et al.), 207
and inferior vena cava ligation, influence of cardiac hemodynamics and natural history on selection of patients for: pulmonary embolism (Wechsler et al.), 182
Embolic occlusion of renal arteries, management of (Thomas, Faulconer, and Lansing), 576
Embolism, fat, syndrome, value of serum lipase estimations in (Ross), 271
lobar pulmonary, in dogs, respiratory response to (Daily and Moulder), 958
pulmonary: influence of cardiac hemodynamics and natural history on selection of patients for embolectomy and inferior vena cava ligation (Wechsler et al.), 182
Endarterectomy, aortoiliac and femoropopliteal, experiences with (Humphries, Young, and McCormack), 48
Endoscopy, biliary: appraisal of its value in biliary lithiasis (Schein), 1004
Epidermolysis bullosa, esophageal reconstruction—colon transplant—in two brothers with (Absolon et al.), 832
Epinephrine-tolerant dogs, prevention of lethal cardiogenic shock in (Dietzman et al.), 623
Erythrocythemic response to nonfunctioning renal "mass" lesion (Silk), 943
Esophageal atresia and tracheoesophageal fistula, story of (Ashcraft and Holder), 332
perforation, management of (Youngs and Nicoloff), 264
reconstruction—colon transplant—in two brothers with epidermolysis bullosa (Absolon et al.), 832
Esophagus and stomach in two-year-old boy, lye burn requiring total gastrectomy and colon substitution for (Shaw, Garvey, and Miller), 837
Excretion, sterol, and changes in cholesterol pool size, turnover rate, and fecal bile acid after partial ileal bypass in hypercholesteremic patients (Moore, Frantz, and Buchwald), 98

F

Fat embolism syndrome, value of serum lipase estimations in (Ross), 271

Fecal bile acid, cholesterol pool size, and turnover rate, changes in, and sterol excretion after partial ileal bypass in hypercholesteremic patients (Moore, Frantz, and Buchwald), 98
Femoropopliteal and aortoiliac endarterectomy, experiences with (Humphries, Young, and McCormack), 48
autogenous vein bypass grafting, variation in technique of (Shanahan and Morris), 432
occlusive disease, aortoiliac angiographic patterns associated with: significance in reconstructive arterial surgery (Haimovici and Steinman), 232
reversed saphenous vein grafts, distal arterial outflow and patency of, quantitative correlation with intraoperative flow and pressure measurements (Mundth et al.), 197
Fiberoptic duodenoscopy (Takagi et al.), 597
Fibrinolysis, spontaneous, observations on (de Takats), 399
Fibroadenoma, giant (benign cystosarcoma phylloides): report of case in 13-year-old girl (Simpson, Van Dervoort, and Lynn), 341
Fibromuscular dysplasia and hypertension of renal arteries (Foster et al.), 157
Fistula, arteriovenous, of lung: long-term results in eight operative cases (Biancalana, Actis-Dato, and Ofoegbu), 567
congenital coronary artery (McNamara and Gross), 59
gastric, preparation to study secretion in innervated stomach (Sanders), 447
tracheoesophageal, and esophageal atresia, story of (Ashcraft and Holder), 332
Fogarty catheter, extended use of (Kinsley and Lawson), 1010

G

Galen, vein of, aneurysm of in infancy (Verdura and Shafron), 494
Ganglionic blockade hypotension, hypervolemia during (Shaftan et al.), 321
Gastrectomy, total, and colon substitution for esophagus and stomach in two-year-old boy, lye burn requiring (Shaw, Garvey, and Miller), 837
Gastric acid secretion, changes following resection or exclusion of different segments of small intestine (Santillana et al.), 777
secretion in rat, effect of small bowel resection on (Caridis, Roberts, and Smith), 292
cancer: success of early detection by coordinated program of periodic gastric mucosal x-ray studies and gastroscopic and gastric camera observations (Nakayama), 227
dilatation, acute, pathophysiologic mechanisms of shock in (Passi, Kraft, and Vasko), 298
fistula preparation to study secretion in innervated stomach (Sanders), 447
mucosa, antral, structure of (Ferguson), 280
replacement operations, total, indications for (Herrington), 1013
secretory tests and their relevance to surgeons (Landor), 523
ulcer reappraisal (Welch and Burke), 708
Gastric—Cont'd
ulceration and acid secretion, reduction of by low molecular weight dextran (Rudick et al.), 470
Gastrin activity, inhibition of by incubation with antibodies to C-terminal tetrapeptide of gastrin (Jaffe, Newton, and McGuigan), 633
Gastropexy, right-sided, subhepatic, anterior, repair of hiatus hernia by (Boerema), 884
Gastroschisis, staged repair with Silastic Sheeting (Cordero, Touloukian, and Pickett), 676
Gastroscopic and gastric camera observations and periodic gastric mucosal x-ray studies, success of early detection of gastric cancer by a coordinated program of (Nakayama), 227
Germ theory in America: antisepsis and asepsis (1867-1900) (Earle), 508
Gigantism, congenital partial: case report and review of literature (El-Shami), 683
Globulin, heterologous antilymphocyte, improvements in preparation of with special reference to absorption and diethylaminoethyl cellulose batch production (Kashiwagi et al.), 477
Glycogen storage disease, portal diversion in (Starzl et al.), 504
report of case of portacaval shunt in treatment of (Hermann and Mercer), 499
Goiter, nodular, case for thyroidectomy for (Smith), 603
toxic, appraisal of current methods of treatment of (McClintock), 700
Grafting, femoropopliteal autogenous vein bypass, variation in technique of (Shanahan and Morris), 432
Grafts, femoropopliteal reversed saphenous vein, distal arterial outflow and patency of, quantitative correlation with intraoperative flow and pressure measurements (Mundth et al.), 197
infected aortic bifurcation, use of bilateral axillofemoral bypass prosthesis for management of: report of case with extended follow-up (Urdaneta et al.), 753
split-thickness skin, procedure for taking from the abdomen (Walker, Jackson, and Zawacki), 563

H

Halothane, effect on spleen cells: in vitro studies on reversibility of immunosuppression (Humphrey, Wingard, and Lang), 939
Heart, left, bypass, initial studies of as long-term cardiac assist device (Stanley), 649
Hemangioendothelioma of liver in infant—hypotensive crisis during resection (Wagget, Inkster, and Ashcroft), 352
Hemangioma, heparin therapy for bleeding associated with (Kelly), 894
Hemodynamics, cardiac, and natural history, influence on selection of patients for embolectomy and inferior vena cava ligation: pulmonary embolism (Wechsler et al.), 182

Hemodynamics—Cont'd
and coronary blood flow with counterpulsation (Dormandy, Goetz, and Kripke), 311
Hemorrhage, graded, surface pH and redox potential of skeletal muscle in (Lemieux et al.), 457
and transfusion, vascular pressure changes during (Waddell and Shumacker), 617
Hemostatic aids, topical, cyanoacrylate adhesives as, clinical use in seven combat casualties (Collins et al.), 260
experimental evaluation on liver wounds in dogs (Collins et al.), 256
Heparin therapy for bleeding associated with hemangioma (Kelly), 894
Hepatic bloodless resection with internal caval shunt (Timmis, Rosanova, and Larkin), 109
lymph, technique for prolonged intermittent sampling of (Wang, Caro, and Yamazaki), 783
Hernia, hiatus: repair by right-sided, subhepatic, anterior gastropexy (Boerema), 884
Hiatus hernia: repair by right-sided subhepatic, anterior gastropexy (Boerema), 884
Hypercholesteremic patients, changes in cholesterol pool size, turnover rate, and fecal bile acid and sterol excretion after partial ileal bypass in (Moore, Frantz, and Buchwald), 98
Hypertension and fibromuscular dysplasia of renal arteries (Foster et al.), 157
Hypervolemia during ganglionic blockade hypotension (Shaftan et al.), 321
Hypocalcemic coma, postoperative atetanic: report of case (Kreisler, Dinbar, and Tulcinsky), 916
Hypotension, ganglionic blockade, hypervolemia during (Shaftan et al.), 321
Hypotensive crisis during resection—hemangioendothelioma of liver in infant (Wagget, Inkster, and Ashcroft), 352

I

Ileal bypass, partial, in hypercholesteremic patients, changes in cholesterol pool size, turnover rate, and fecal bile acid and sterol excretion after (Moore, Frantz, and Buchwald), 98
Ileum and jejunum, congenital atresia and stenosis of (deLorimier et al.), 819
Ileus, meconium, secondary to partial aplasia of pancreas: report of case (Auburn et al.), 689
Immunologic responsiveness of rat, effect of surgery and anesthesia on (Humphrey, Wingard, and Lang), 946
Immunological tolerance, actively acquired, mechanism of (Stremple), 868
Immunosuppression, in vitro studies on reversibility of: effect of halothane on spleen cells (Humphrey, Wingard, and Lang), 939
Implantation, pedicle, revascularization of kidney by (Friedman, Frank, and Lambert), 148
Infarction, myocardial, surgically treatable complications of (Rossi, Flege, and Ehrenhaft), 118
Infarction—Cont'd
renal, in newborn infant, idiopathic vena caval thrombosis with: survival following nephrectomy (Touloukian), 978
Infection, surgical: single bacterial species or polymicrobic in origin? (Robson and Heggers), 608
Intellectual humility in medical practice and research (Bigelow), 1
Intestinal obstruction, acute, historical aspects of management of (Wangensteen), 363
Intestine, small, changes in gastric acid secretion following resection or exclusion of different segments of (Santillana et al.), 777
massive resection of (Chen), 931

J

Jejunal autografts and allografts, canine, absorptive function in (Cohen et al.), 440
Jejunum and ileum, congenital atresia and stenosis of (deLorimier et al.), 819

K

Kidney, revascularization of by pedicle implantation (Friedman, Frank, and Lambert), 148
Kocher, Theodor, biography of (McGreevy and Miller), 990

L

Laparotomy, use of cutting diathermy in: transection of rectus abdominis (Jones), 507
Ligation, inferior vena cava, and embolectomy, influence of cardiac hemodynamics and natural history on selection of patients for: pulmonary embolism (Wechsler et al.), 182
Lipase, serum, estimations, value in fat embolism syndrome (Ross), 271
Lithiasis, biliary, appraisal of the value of biliary endoscopy in (Schein), 1004
Liver, human, angiography after extensive resection (Bengmark, Engevik, and Rosengren), 590
in infant, hemangioendothelioma of—hypotensive crisis during resection (Wagget, Inkster, and Ashcroft), 352
report of three cases of nonparasitic cysts of (Belcher and Hull), 427
wounds in dogs, experimental evaluation of cyanoacrylate adhesives as topical hemostatic aids (Collins et al.), 256
Lung, arteriovenous fistula of: long-term results in eight operative cases (Biancalana, Actis-Dato, and Ofoegbu), 567
isolated canine, perfusion-ventilation of: hemodynamic considerations (Dritsas, Brown, and Couves), 611
Lymph, hepatic, technique for prolonged intermittent sampling of (Wang, Caro, and Yamazaki), 783
node metastasis in osteogenic sarcoma (Cáceres, Zaharia, and Tantalean), 421
separation of lymphocytes from by continuous flow centrifugation (Fish et al.), 789

Lymphocytes, separation from lymph by continuous flow centrifugation (Fish et al.), 789
Lymphocytotoxins in sera from patients receiving renal allografts (Shorter et al.), 793
Lymphosarcoma, primary, of tonsil (Terz and Farr), 772

M

Mammary-coronary anastomosis, telescopic internal, ventricular function, coronary flow, and oxygen consumption after (Barner et al.), 127
Meconium ileus secondary to partial aplasia of pancreas: report of case (Auburn et al.), 689
Medical practice and research, intellectual humility in (Bigelow), 1
Megacolon, toxic, current surgical aspects of (Judd), 401
Metabolic and tissue blood flow changes resulting from aortic cross-clamping (Lim, Bergentz, and Lewis), 304
Metastasis, lymph node, in osteogenic sarcoma (Cáceres, Zaharia, and Tantalean), 421
Midline cervical ectopic thyroid tissue, report of 2 cases (Meyerowitz and Buchholz), 358
Mitral valve experimental prostheses in dog, evaluation of (Cross, Akao, and Jones), 89
  fixation, prosthetic, new technique for: method of continuous mattress suture (Horiuchi and Abe), 1007
Morbidity and mortality, analysis from arterial embolectomy (Stallone et al.), 207
Mortality and morbidity, analysis from arterial embolectomy (Stallone et al.), 207
Mucosa, structure of antral gastric (Ferguson), 280
Muscle, skeletal, in graded hemorrhage, surface pH and redox potential of (Lemieux et al.), 457
Myocardial infarction, surgically treatable complications of (Rossi, Flege, and Ehrenhaft), 118
  revascularization, new concept for rationale of Vineberg operation for (Carlson et al.), 141
  stimulation thresholds, use of digital readout unit for rapid determination (Harris et al.), 10
Myxoma, atrial (Bigelow, Herr, and Starr), 247

N

Nephrectomy, survival following: idiopathic vena caval thrombosis with renal infarction in newborn infant (Touloukian), 978
Nevi, giant strawberry, of orbital arteries: treatment by ligation (Walsh), 659
Nidus of common bile duct calculus: silk (Sigler and Sahler), 276

O

Obstruction, acute intestinal, historical aspects of management of (Wangensteen), 363
Occlusion of innominate, common carotid, and subclavian arteries, surgical treatment of (Crawford et al.), 17
Occlusive femoropopliteal disease, aortoiliac angiographic patterns associated with: significance in reconstructive arterial surgery (Haimovici and Steinman), 232
Osteogenic sarcoma, lymph node metastasis in (Cáceres, Zaharia, and Tantalean), 421
Oxygen consumption, ventricular function, and coronary flow after telescopic internal mammary-coronary anastomosis (Barner et al.), 127

P

Pancreas and duodenum, preserved, experimental allotransplantation of (Idezuki, Goetz, and Lillehei), 485
  management of trauma to (Mulé and Adaniel), 423
  meconium ileus secondary to partial aplasia of: report of case (Auburn et al.), 689
Papase, use in prevention of experimental peritoneal adhesions (Kapur, Talwar, and Gulati), 629
Paragangliomas of organ of Zuckerkandl, clinical and pathologic features of (Brantigan and Katase), 898
Patency and distal arterial outflow of femoropopliteal reversed saphenous grafts, quantitative correlation with intraoperative flow and pressure measurements (Mundth et al.), 197
Pediatric surgeon, role in surgical community (Fonkalsrud), 565
Pedicle implantation, revascularization of kidney by (Friedman, Frank, and Lambert), 148
Pelvic exenteration combined with resection of segments of bony pelvis (Brunschwig and Barber), 417
Percutaneous tracheostomy device (Toy and Weinstein), 384
Perforation, esophageal, management of (Youngs and Nicoloff), 264
Perfusion-ventilation of isolated canine lung: hemodynamic considerations (Dritsas, Brown, and Couves), 611
Peritoneal adhesions, experimental, use of Papase in prevention of (Kapur, Talwar, and Gulati), 629
Phylloides, benign cystosarcoma (giant fibroadenoma): report of case in 13-year-old girl (Simpson, Van Dervoort, and Lynn), 341
Pneumonectomy, childhood, some late sequels of (Šerý, Ressl, and Vyhnálek), 343
Portacaval shunt in treatment of glycogen storage disease: report of case (Hermann and Mercer), 499
Portal diversion in glycogen storage disease (Starzl et al.), 504
Practice, medical, and research, intellectual humility in (Bigelow), 1

Pressure and intraoperative flow measurements, quantitative correlation with distal arterial outflow and patency of femoropopliteal reversed saphenous vein grafts (Mundth et al.), 197

Prosthesis(es), bilateral axillofemoral bypass, use for management of infected aortic bifurcation grafts: report of case with extended follow-up (Urdaneta et al.), 753

experimental mitral valve in dog, evaluation of (Cross, Akao, and Jones), 89

impermeable velour-lined cardiovascular, production of cellular linings in: growth from implanted tissue fragments (Ghidoni et al.), 70

thin, porous, knitted arterial: experimental data and early clinical assessment (Sauvage et al.), 78

valvular, in children (Pérez-Alvarez et al.), 668

Prosthetic devices, fabric lattice covering intravascular, mechanism of formation of tissue layers on (Bull, Fuchs, and Braunwald), 640

mitral valve fixation, new technique for: method of continuous mattress suture (Horiuchi and Abe), 1007

reconstruction of trachea (Cheng, Takagi, and Akutsu), 462

Pulmonary artery constriction (banding): report of 146 cases (Stark et al.), 808

embolism: influence of cardiac hemodynamics and natural history on selection of patients for embolectomy and inferior vena cava ligation (Wechsler et al.), 182

lobar, embolism in dogs, respiratory response to (Daily and Moulder), 958

valvectomy, right ventricular performance in dogs following (Burnell et al.), 952

R

Readout unit, digital, use for rapid determination of myocardial stimulation thresholds (Harris et al.), 10

Reconstructive arterial surgery, significance of aortoiliac angiographic patterns associated with femoropopliteal occlusive disease in (Haimovici and Steinman), 232

Rectus abdominis, transection of: use of cutting diathermy in laparotomy (Jones), 507

Redox potential and surface pH of skeletal muscle in graded hemorrhage (Lemieux et al.), 457

Registry, Vietnam Vascular: preliminary report (Rich and Hughes), 218

Renal allografts, lymphocytotoxins in sera from patients receiving (Shorter et al.), 793

arteries, hypertension and fibromuscular dysplasia of (Foster et al.), 157

management of embolic occlusion of (Thomas, Faulconer, and Lansing), 576

effects of electrical stimulation of carotid sinus nerve (Michaelis and Gilmore), 797

failure, postoperative, management following cardiovascular surgery (Porter and Starr), 390

infarction in newborn infant, idiopathic vena caval thrombosis with: survival following nephrectomy (Touloukian), 978

Renal—Cont'd

"mass" lesion, nonfunctioning, erythrocythemic response to (Silk), 943

vein, left, temporary transection of: technical aid in aortic surgery (Szilagyi, Smith, and Elliott), 32

Research and medical practice, intellectual humility in (Bigelow), 1

Resection, bloodless hepatic, with internal caval shunt (Timmis, Rosanova, and Larkin), 109

Respiratory response to lobar pulmonary embolism in dogs (Daily and Moulder), 958

Reticuloendothelial function and surgical stress (Saba and Di Luzio), 802

Revascularization of kidney by pedicle implantation (Friedman, Frank, and Lambert), 148

myocardial, new concept for rationale of Vineberg operation for (Carlson et al.), 141

Rhabdomyosarcoma of spermatic cord (Hays et al.), 845

S

Saphenous vein grafts, femoropopliteal reversed, distal arterial outflow and patency of, quantitative correlation with intraoperative flow and pressure measurements (Mundth et al.), 197

Sarcoma, osteogenic, lymph node metastasis in (Cáceres, Zaharia, and Tantalean), 421

Septic shock, treatment of: problem intensified by advancing science (Baue), 850

Serum lipase estimations, value in fat embolism syndrome (Ross), 271

Sexual function, changes following operation on abdominal aorta (May, DeWeese, and Rob), 41

Shock in acute gastric dilatation, pathophysiologic mechanisms of (Passi, Kraft, and Vasko), 298

Shunt, internal caval, bloodless hepatic resection with (Timmis, Rosanova, and Larkin), 109

portacaval, in treatment of glycogen storage disease: report of case (Hermann and Mercer), 499

Silastic Sheeting, staged repair of gastroschisis with (Cordero, Touloukian, and Pickett), 676

Silk: nidus of common bile duct calculus (Sigler and Sahler), 276

Sinus nerve, carotid, renal effects of electrical stimulation of (Michaelis and Gilmore), 797

Skeletal muscle in graded hemorrhage, surface pH and redox potential of (Lemieux et al.), 457

Small bowel resection, effect on gastric acid secretion in rat (Caridis, Roberts, and Smith), 292

Splenic transplantation in rat, technique for (Lee and Orloff), 436

Spermatic cord, rhabdomyosarcoma of (Hays et al.), 845

Spleen cells, effect of halothane on: in vitro studies on reversibility of immunosuppression (Humphrey, Wingard, and Lang), 939

Split-thickness skin grafts, procedure for taking from abdomen (Walker, Jackson, and Zawacki), 563
Stenosis and congenital atresia of jejunum and ileum (deLorimier et al.), 819
Sterol excretion and changes in cholesterol pool size, turnover rate, and fecal bile acid after partial ileal bypass in hypercholesteremic patients (Moore, Frantz, and Buchwald), 98
Stomach and esophagus in two-year-old boy, lye burn requiring total gastrectomy and colon substitution for (Shaw, Garvey, and Miller), 837
Strawberry nevi, giant, of orbital arteries: treatment by ligation (Walsh), 659
Subclavian, innominate, and common carotid arteries, surgical treatment of (Crawford et al.), 17
  vein, cut-down of (Merkel and McQuarrie), 866
Surgery and anesthesia, effect on immunologic responsiveness of rat (Humphrey, Wingard, and Lang), 946
Syndrome, fat embolism, value of serum lipase estimations in (Ross), 271

T

Thresholds, myocardial stimulation, use of digital readout unit for rapid determination of (Harris et al.), 10
Thrombophlebitis, prospective double blind study of clinical dextran in (Bernard et al.), 191
Thrombosis, idiopathic vena caval, with renal infarction in newborn infant: survival following nephrectomy (Touloukian), 978
  of internal carotid artery, operation for acute completed stroke due to (Rob), 862
Thyroid tissue, midline cervical ectopic report of 2 cases (Meyerowitz and Buchholz), 358
Thyroidectomy in management of thyrotoxicosis in adolescent (Reeve et al.), 694
  for nodular goiter, case for (Smith), 603
Thyrotoxicosis in adolescent, thyroidectomy in management of (Reeve et al.), 694
Tissue blood flow and metabolic changes resulting from aortic cross-clamping (Lim, Bergentz, and Lewis), 304
  fragments, implanted, growth from: production of cellular linings in impermeable velour-lined cardiovascular prostheses (Ghidoni et al.), 70
Tonsil, primary lymphosarcoma of (Terz and Farr), 772
Toxic megacolon, current surgical aspects of (Judd), 401
Trachea, prosthetic reconstruction of (Cheng, Takagi, and Akutsu), 462
Tracheostomy, percutaneous device for (Toy and Weinstein), 384
Tracheoesophageal fistula and esophageal atresia, story of (Ashcraft and Holder), 332
Transection, temporary, of left renal vein: technical aid in aortic surgery (Szilagyi, Smith, and Elliott), 32
Transfusion practices, surgical, 1967 (Morton), 407
Transplantation, splenic, technique for in rat (Lee and Orloff), 436
Transposition of great vessels with previous Baffes' procedure, operative technique for (Yao and Mustard), 873
Trauma to pancreas, management of (Mulé and Adaniel), 423
Tumors, desmoid, of anterior abdominal wall (Brasfield and Das Gupta), 241
Tumor-specific antigens, human (Hellström, Pierce, and Hellström), 984

U

Ulcer, gastric, reappraisal (Welch and Burke), 708
Ulceration, gastric, and acid secretion, reduction of by low molecular weight dextran (Rudick et al.), 470
Unit, digital readout, use for rapid determination of myocardial stimulation thresholds (Harris et al.), 10

V

Vagotomy, surgical indications for (Vansant), 1000
Valve, mitral, evaluation of experimental prostheses in dog (Cross, Akao, and Jones), 89
Valvectomy, pulmonary, right ventricular performance in dogs following (Burnell et al.), 952
Vascular pressure changes during hemorrhage and transfusion (Waddell and Shumacker), 617
  Registry, Vietnam: preliminary report (Rich and Hughes), 218
Vein bypass grafting, femoropopliteal autogenous, variation in technique of (Shanahan and Morris), 432
  of Galen, aneurysm of in infancy (Verdura and Shafron), 494
  grafts, femoropopliteal reversed saphenous, distal arterial outflow and patency of, quantitative correlation with intraoperative flow and pressure measurements (Mundth et al.), 197
  left renal, temporary transection of: technical aid in aortic surgery (Szilagyi, Smith, and Elliott), 32
  subclavian, cut-down of (Merkel and McQuarrie), 866
Velocitometer, catheter tip, quantification of aortic regurgitation with (Nolan et al.), 876
Vena cava, inferior, ligation and embolectomy, influence of cardiac hemodynamics and natural history on selection of patients for: pulmonary embolism (Wechsler et al.), 182
Vena caval thrombosis, idiopathic, with renal infarction in newborn infant: survival following nephrectomy (Touloukian), 978
Ventricular function, coronary flow, and oxygen consumption after telescopic internal mammary-coronary anastomosis (Barner et al.), 127

Ventricular—Cont'd
right, performance in dogs following pulmonary valvectomy (Burnell et al.), 952
Vietnam Vascular Registry: preliminary report (Rich and Hughes), 218
Vineberg operation for myocardial revascularization, new concept for rationale of (Carlson et al.), 141
Vitelline artery causing small bowel obstruction in adult (Prust and Abouatme), 716

Z

Zuckerkandl, organ of, clinical and pathologic features of paragangliomas of (Brantigan and Katase), 898

SUBJECT INDEX*

A

Abdominal aorta, traumatic aneurysm of, successful repair of (Rich, Clarke, and Baugh), 492
  catastrophe, acute, spontaneous rupture of esophagus presenting as (Campbell and Cox), 304
  pain and emesis, congenital stenosis of common duct as cause of (Grayer), 398
Acid, amino, sugar, and ion transport, effects of insulin on, across isolated small intestine (Fromm, Field, and Silen), 145
  gastric, secretion and beta-adrenergic receptors (Geumei et al.), 663
  hypersecretion associated with portacaval shunts, humoral mediation of intestinal phase of gastric secretion and of (Orloff et al.), 118
Adenosine triphosphate levels in hemorrhagic and endotoxic shock in rat, comparison of (Staples, Topuzlu, and Blair), 883
Adenotonsillectomy, blood loss during (Nowill and Ridall), 856
Adrenal gland, nonsteroid, calcitonin-like factor from (Kaplan, Peskin, and Arnaud), 167
Adrenalectomy, conjugation of steroid hormones by breast cancer tissue and selection of patients for (Dao and Libby), 162
Albumin synthesis by hemorrhage, stimulation of (Malt et al.), 65
Alcoholic, acute, rapid detoxification of, with hemodialysis (Walder et al.), 201
Alkalosis, respiratory, and hyperventilation, excess lactate production due to (White et al.), 250
Allograft(s) (homografts), skin, full-thickness, in mice, microcirculatory events within (Zarem), 392
  lung, canine, from cadaver donors, physiologic evaluation of (Rangel et al.), 863
  mechanisms of leukocyte infiltration of; separation and early appearance of two components (Foker et al.), 42
  skin, and immunosuppression in treatment of massive thermal injury (Koumans and Burke), 89
  survival after treatment with antilymphocyte serum combined with immunosuppressive drugs (Grogan and Shivers), 1085
Allografting split-thickness skin donor sites (Graham), 460
Amino acid, sugar, and ion transport, effects of insulin on, across isolated small intestine (Fromm, Field, and Silen), 145
Ammonium, insulin, and glucose after portacaval shunting (Brown, Covelli, and Brown), 383

*July, pp. 1-290; August, pp. 291-462; September, pp. 463-638; October, pp. 639-810; November, pp. 811-968; December, pp. 969-1148.

Amylase levels, urine and serum, value of: pseudocysts of pancreas (Vajcner and Nicoloff), 842
Analgesia, chronic, by silicone rubber diffusion (Folkman, Reiling, and Williams), 194
Anastomosis(es) of radial artery to cephalic vein, embolic and ischemic complications after (Storey et al.), 325
  small-bowel, comparative study by angiography and microangiography (Abramowitz and McAlister), 564
Anemia, chronic, effect on tensile strength of healing wounds (Hugo et al), 741
Anencephalic monster, homotransplantation of both kidneys from, to 17 pound boy with Eagle-Barrett syndrome (Martin et al.), 603
Anesthesia, general, sudden hyperpyrexia during (Thomford, Hamelberg, and Wiederholt), 850
Aneurysm, crutch, occult, of axillary artery, recurrent embolism from (Danese et al.), 860
  false, traumatic, of cervical internal carotid artery (Deysine, Adiga, and Wilder), 1004
  traumatic, of abdominal aorta, successful repair of (Rich, Clarke, and Baugh), 492
Angiographic study of muscular blood supply in the leg, new ergometer for (Khobreh), 627
Angiography and microangiography, comparative study of small-bowel anastomoses by (Abramowitz and McAlister), 564
Antibiotics, corticosteroids, and peritoneal lavage, value in treatment of experimental peritonitis (Sleeman et al.), 1060
Antibodies, heterophil, in the sera of recipients in clinical renal transplantation (O'Kane et al.), 682
Antigens, specific, release of substances by immune lymphocytes confronted with: in vitro correlates of transplantation immunity (Falk, Collste, and Möller), 51
Antilymphocyte serum (sera) combined with immunosuppressive drugs, allograft survival after treatment with (Grogan and Shivers), 1085
  effective and ineffective, preparation and in vitro assay of (Davis, Cooperband, and Mannick), 58
  raised by immunization with thymic, splenic, and lymph node lymphocytes, comparative in vitro and in vivo activity of (Ono et al.), 698
Antiplasmin, fast, report of a case and inquiry into the nature of: recurrent thromboembolism (Gans et al.), 1014
Antral mucosa, anatomic pathways of vagal fibers to (Legros and Griffith), 751

Anus and genitourinary tract, duplication of (Smith), 909
imperforate, localization of external sphincter during operation for (McGovern and Trump), 1090
Aorta, abdominal, traumatic aneurysm of, successful repair of (Rich, Clarke, and Baugh), 492
Aortic patch, dynamic, as permanent mechanical auxiliary ventricle: experimental studies (Sujansky et al.), 875
valve, surgery for: prosthesis and heterograft (Levy, Vidne, and Lebinshon), 313
Appendicoenterosigmoid fistula (Pairolero, Judd, and Hodgson), 695
Arterial grafts, prosthetic, prevention of early failure in: evaluation of dextran-70 (Andrews et al.), 535
resistance and flow patterns of specific vascular beds, effects of sinus nerve stimulation on (Resnicoff et al.), 755
suture techniques and grafts: past, present, and future (Shumacker and Muhm), 419
Arterioportal shunt, intrahepatic vascular pathways in isolated perfused normal human liver with special reference to (Geumei), 319
Arteriovenous fistulas, systemic-portal: pathological and hemodynamic observations in two patients (Donovan et al.), 474
in dogs, new technique for repair of (McClure, Shippey, and Martin), 590
Artery, axillary, recurrent embolism from occult crutch aneurysm of (Danese et al.), 860
carotid, internal, cervical, traumatic false aneurysm of (Deysine, Adiga, and Wilder), 1004
femoral, deep, occluded, salvage of leg by revascularization of (Killen), 506
hepatic, and portal vein blood to "small" and "large" tumors, distribution of: blood supply of experimental liver metastases (Ackerman et al.), 1067
occlusion, hepatic, safe, in dogs (Conolly, Belzer, and Dunphy), 772
radial, to cephalic vein, embolic and ischemic complications after anastomosis of (Storey et al.), 325
Autografts, renal, induction of glomerulonephritis in (Rapaport et al.), 34
Azathioprine suppression of renal homograft rejection, failure of phytohemagglutinin to enhance (Green, Hattori, and Killen), 704

B

Bacteremia, *Escherichia coli*, transient, experimental wound sepsis from (Howe), 570
Balloon tamponade, intra-arterial (Yates), 634
Beta-adrenergic receptors and gastric acid secretion (Geumei et al.), 663
-aminopropionitrile in patients with injured flexor tendons, some studies on effects of (Peacock and Madden), 215
Bile, periodic collection of, preparation of rats for (Thomford and Butterfield), 1073
secretion, hormonal regulation of: study in isolated, perfused liver (Pissidis et al.), 1075
Biliary pressure, effect of vagotomy on (Williams and Huang), 353
Biopsies, tissue, and wound pyogenic exudates, phage patterns of *Staphylococcus aureus*, isolated from: surgical infections (Heggers and Robson), 471
Bisection, hemodynamic, of liver (Kaplan, Davies, and Field), 357
Bleeding, venous, effect of external counterpressure on (Ludewig and Wangensteen), 515
Blocking agents, sympathetic, use in treatment: ileus (Catchpole), 811
Blood flow, peripheral, effect of chlorpromazine on (Kilman), 886
renal, effects of depulsation of, upon renal function and renin secretion (Many et al.), 242
hepatic artery and portal vein, distribution to "small" and "large" tumors: blood supply of experimental liver metastases (Ackerman et al.), 1067
loss during adenotonsillectomy (Nowill and Ridall), 856
-prosthetic interface problem: use of hydrophilic protein gel to prevent blood clotting on prosthetic materials (Maloney et al.), 275
substitute, "ideal": stroma-free hemoglobin solution (Peskin, O'Brien, and Rabiner), 185
supply of experimental liver metastases: distribution of hepatic artery and portal vein blood to "small" and "large" tumors (Ackerman et al.), 1067
muscular, in leg, new ergometer for angiographic study of (Khobreh), 627
Bowel conduits, large, drainage of massive hydronephrosis with (Markland), 835
large, Crohn's disease of (Jackman and Douglas), 980
small, anastomoses, comparative study by angiography and microangiography (Abramowitz and McAlister), 564
Brain, primate, profound selective cooling and ischemia of, without pump or oxygenator (White et al.), 224
Breast cancer tissue, conjugation of steroid hormones by, and selection of patients for adrenalectomy (Dao and Libby), 162
Buffered saline solutions: definition of moderation (Rush and Bosomworth), 461
Burn patients, ischemic necrosis of tibialis anterior muscle in: report of three cases (Asch, Flemma, and Pruitt), 846
Bypass, carotid-subclavian: hemodynamic study (Lord and Ehrenfeld), 521
graft and thromboendarterectomy in occlusive vascular disorders, role of (Thomas), 965
pump, implantable left ventricular, development and experimental evaluation of (Pierce et al.), 1034

C

Calcitonin-like, nonsteroid factor from adrenal gland (Kaplan, Peskin, and Arnaud), 167
Cancer tissue, breast, conjugation of steroid hormones by, and selection of patients for adrenalectomy (Dao and Libby), 162
Carcinoma, esophageal, and cardiospasm: report of 24 cases (Lortat-Jacob et al.), 969
occurring in pharyngoesophageal diverticulum: report of three cases (Wychulis, Gunnlaugsson, and Clagett), 976

Cardiac output and flow measurements, ligation versus clip compartmentation with: acute cardiovascular effects of vena cava interruption (Neeley and Allenberg), 762
pacemaker(s) pouch, incision for (Anderson, O'Hare, and Fritz), 809
with systematic approach to malfunction, long-term management of: report of 37 cases (Williams and Campbell), 644
Cardiopulmonary resuscitation and John Hunter (Nolan), 611
Cardiospasm and esophageal carcinoma: report of 24 cases (Lortat-Jacob et al.), 969
Cardiovascular, acute, effects of vena cava interruption: ligation versus clip compartmentation with cardiac output and flow measurements (Neeley and Allenberg), 762
Carotid artery, internal, cervical, traumatic false aneurysm of (Deysine, Adiga, and Wilder), 1004
-subclavian bypass: hemodynamic study (Lord and Ehrenfeld), 521
Casualties, combat, massive transfusion of frozen processed red cells in: report of three cases (Moss), 1008
Cell(s), frozen processed red, massive transfusion of, in combat casualties: report of three cases (Moss), 1008
red, mass measurement, improved experimental (Moss), 771
Cephalic vein, embolic and ischemic complications after anastomosis of radial artery to (Storey et al.), 325
Cervical internal carotid artery, traumatic false aneurysm of (Deysine, Adiga, and Wilder), 1004
Chlorpromazine, effect on peripheral blood flow (Kilman), 886
and phenoxybenzamine, hepatic preservation with; application to liver transplantation (Fonkalsrud et al.), 23
Cholecystitis, vagal factor in (Schein et al.), 345
Choleresis, secretin-like, produced by diarrheogenic non-beta islet cell tumor of pancreas (Tompkins, Kraft, and Zollinger), 131
Circulatory dynamics and oxygen consumption in experimental hemorrhagic shock, effect of low molecular weight dextran on (Smith, Staehelin, and Jolley), 782
hemodynamics; experimental studies in cold injury (Weatherly-White et al.), 208
Clotting, blood, on prosthetic materials, use of hydrophilic protein gel to prevent: blood-prosthetic interface problem (Maloney et al.), 275
Coagulation, hyperlipemia, and fat embolism, intravascular: their association during generalized Shwartzman phenomenon in rabbits (Allardyce and Groves), 71
Colitis, ulcerative, nonspecific (Hawk, Turnbull, and Schofield), 953
Congenital diaphragmatic hernias in neonates, method of repairing without increasing intra-abdominal pressure: ventral Silon pouch (Simpson), 798
Common duct, congenital stenosis of, as cause of abdominal pain and emesis (Grayer), 398
Common duct—cont'd
stones, retained: new nonoperative technique for treatment (Lamis, Letton, and Wilson), 291
Computerization of department of surgery (Reading et al,), 181
Cooling for massive upper gastrointestinal tract hemorrhage, gastric tamponade as adjunct to: preliminary report of new technique (Edlich et al.), 669
Corticosteroids, antibiotics, and peritoneal lavage, value in treatment of experimental peritonitis (Sleeman et al.), 1060
Counterpressure, external, effect on venous bleeding (Ludewig and Wangensteen), 515
Crohn's disease, ileovesical fistula in (Kyle and Murray), 497
large bowel (Jackman and Douglas), 980
Crutch aneurysm, occult, of axillary artery, recurrent embolism from (Danese et al.), 860

D

Dacron, Siliastic-reinforced, evaluation of, for replacement of inferior vena cava (McCaughan), 375
Depulsation of renal blood flow, effects of, upon renal function and renin secretion (Many et al.), 242
Detoxification, rapid, of acute alcoholic with hemodialysis (Walder et al.), 201
Dextran, low molecular weight, effect on circulatory dynamics and oxygen consumption in experimental hemorrhagic shock (Smith, Staehelin, and Jolley), 782
-70, evaluation of: prevention of early failure in prosthetic arterial grafts (Andrews et al.), 535
Diarrheogenic non-beta islet cell tumor of pancreas, secretin-like choleresis produced by (Tompkins, Kraft, and Zollinger), 131
Dimple, scrotal, in testicular torsion (Ger), 907
Disease, hydatid, of lung, surgical treatment of (Papadimitriou), 488
Crohn's, ileovesical fistula in (Kyle and Murray), 497
of large bowel (Jackman and Douglas), 980
Diverticulum, pharyngeosophageal, carcinoma occurring in: report of three cases (Wychulis, Gunnlaugsson, and Clagett), 976
Drainage of massive hydronephrosis with large bowel conduits (Markland), 835
Drugs, immunosuppressive, combined with antilymphocyte serum, allograft survival after treatment with (Grogan and Shivers), 1085
Duct, common, congenital stenosis of, as cause of abdominal pain and emesis (Grayer), 398
stones, common, retained: new nonoperative technique for treatment (Lamis, Letton, and Wilson), 291
Ductus arteriosus in rats, an ultrastructural evaluation of closure of (Jones, Barrow, and Wheat), 891
Dumping syndrome, experimental, hemodynamics of (Grafe and Swan), 734
Duplication of primitive hindgut of human being: 8 year follow-up of previous case report (Beach, Wright, and Deffer), 405
of anus and genitourinary tract (Smith), 909

E

Eagle-Barrett syndrome, homotransplantation of both kidneys from anencephalic monster to 17 pound boy with (Martin et al.), 603

Edema, pulmonary transthoracic electrical impedance for early detection of (Pomerantz et al.), 260

Education, surgical, continuum in: proposal for maximal flexibility in career planning by selective experiences in medical school and graduate training (Sabiston), 1

Electrical impedance, transthoracic, for early detection of pulmonary edema (Pomerantz et al.), 260

Electrode, suction-needle, new, use of: intraluminal lead of gastric action potentials in human subjects (Shiratori et al.), 483

Endotoxic and hemorrhagic shock in rat, comparison of adenosine triphosphate levels in (Staples, Topuzlu, and Blair), 883

Enzyme, serum, alterations after open-heart surgery (Dieter, Neville, and Pifarré), 328

Embolic and ischemic complications after anastomosis of radial artery to cephalic vein (Storey et al.), 325

Embolism, air, systemic, following open-heart surgery, importance of pulmonary veins in (Fishman, Carlsson, and Roe), 655

fat, coagulation, and hyperlipemia, intravascular: their association during generalized Shwartzman phenomenon in rabbits (Allardyce and Groves), 71

experimental, effect of heparin in (Ross), 765

recurrent, from occult crutch aneurysm of axillary artery (Danese et al.), 860

Ergometer, new, for angiographic study of muscular blood supply in leg (Khobreh), 627

Esophageal carcinoma and cardiospasm: report of 24 cases (Lortat-Jacob et al.), 969

hiatal hernia in infancy and childhood, results of surgical treatment of (Cahill, Aberdeen, and Waterston), 597

varices, experimental (Dòmini and Shaw), 715

Esophagobronchial and esophagotracheal fistulas, acquired, palliative and radical operation for (Petrovsky et al.), 463

Esophagotracheal and esophagobronchial fistulas, acquired, palliative and radical operations for (Petrovsky et al.). 463

Esophagus, spontaneous rupture of, presenting as acute abdominal catastrophe (Campbell and Cox), 304

Escherichia coli bacteremia, transient, experimental wound sepsis from (Howe), 470

Exstrophy, vesicoileosigmoidostomy in treatment of (Hays, Powell, and Strauss), 1103

F

Fat embolism, coagulation, and hyperlipemia, intravascular: their association during generalized Shwartzman phenomenon in rabbits (Allardyce and Groves), 71

experimental, effect of heparin in (Ross), 765

Fat—Cont'd

intravenously administered, in adult and newborn dogs, metabolism of (Coran and Nesbakken), 922

Femoral artery, deep, occluded, salvage of leg by revascularization of (Killen), 506

Fetal fibroblasts as substratum for pseudoendothelial development on prosthetic surfaces (Bernhard et al.), 284

surgery in the rabbit (Thomasson and Ravitch), 1092

Fibers, vagal, anatomic pathways of, to the antral mucosa (Legros and Griffith), 751

Fibrinogen turnover in hepatectomized dogs studied with radioactively labeled fibrinogen (Bergentz et al.), 540

Fibroblasts, fetal, as substratum for pseudoendothelial development on prosthetic surfaces (Bernhard et al.), 284

Fistula(s), appendicoenterosigmoid (Pairolero, Judd, and Hodgson), 695

arteriovenous, in dogs, new technique for repair of (McClure, Shippey, and Martin), 590

systemic-portal: pathological and hemodynamic observations in two patients (Donovan et al.), 474

esophagotracheal and esophagobronchial, acquired, palliative and radical operations for (Petrovsky et al.), 463

ileovesical, in Crohn's disease (Kyle and Murray), 497

lymphatic-venous, treatment of lymphedema of the limbs by (Politowski, Bartkowski, and Dynowski), 639

Flexor tendons, injured, some studies on effects of β-aminopropionitrile in patients with (Peacock and Madden), 215

Flow(s), blood, peripheral, effect of chlorpromazine on (Kilman), 886

and output measurements, cardiac, ligation versus clip compartmentation with: acute cardiovascular effects of vena cava interruption (Neeley and Allenberg), 762

patterns of specific vascular beds and arterial resistance, effects of sinus nerve stimulation on (Resnicoff et al.), 755

portal, retrograde, and hepatic metabolic efficiency following side-to-side portacaval shunt, effect of increased outflow resistance on (Reilly et al.), 1026

secondary, induced, augmentation of membrane gas transfer by (Drinker et al.), 775

Flora, intestinal, in dogs with nonstrangulating intestinal obstruction, changes in (Hicks, Baumann, and Enquist), 580

Fluid dynamic problems in reconstructive vascular surgery, approach to (Malan, Noseda, and Longo), 994

Formaldehyde-gelatin-resorcin glue, new, experimental studies with (Koehnlein and Lemperle), 377

Frostbite, experimental, and hyperbaric oxygenation (Gage, Ishikawa, and Winter), 1044

Frozen processed red cells, in combat casualties, massive transfusion of: report of three cases (Moss), 1008

G

Gas transfer, membrane, augmentation by induced secondary flows (Drinker et al.), 775

Gastrectomy, total, with survival: gastric teratoma in newborn infant (De Angelis), 794
Gastric acid secretion and beta-adrenergic receptors (Geumei et al.), 663
action potentials in human subjects, intraluminal lead of: use of new suction-needle electrode (Shiratori et al.), 483
juice, effect of change in hydrogen ion content on gastric mucus secretion (Wise and Ballinger), 723
secretagogues following portacaval shunting (Griffen, Slesh, and Mooney), 111
secretion, humoral mediation of intestinal phase of, and of acid hypersecretion associated with portacaval shunts (Orloff et al.), 118
tamponade as adjunct to cooling for massive upper gastrointestinal tract hemorrhage: preliminary report of new technique (Edlich et al.), 669
teratoma in newborn infant: total gastrectomy with survival (De Angelis), 794
Gastrin: immunochemical properties and measurement by radioimmunoassay (Charters et al.), 104
Gastrointestinal sump tube (Dennis), 309
tract hemorrhage, upper, massive, gastric tamponade as adjunct to cooling in: preliminary report of new technique (Edlich et al.), 669
Gel, hydrophilic protein, use of, to prevent blood clotting on prosthetic materials: blood-prosthetic interface problem (Maloney et al.), 275
Gelatin-resorcin-formaldehyde glue, new, experimental studies with (Koehnlein and Lemperle), 377
Genitourinary, rectal-, anomaly, complicated, in newborn infant treated by pelvic exenteration (Griffen, Walton, and Cunningham), 608
tract and anus, duplication of (Smith), 909
Gland, adrenal, nonsteroid, calcitonin-like factor from (Kaplan, Peskin, and Arnaud), 167
Globulin, gamma-G, antilymphocyte, modifications of established rejection of canine kidney and liver homografts with (Smith et al.), 546
Glomerulonephritis in renal autografts, induction of (Rapaport et al.), 34
Glucose, insulin, and ammonium after portacaval shunting (Brown, Covelli, and Brown), 383
Graft(s), arterial, prosthetic, prevention of early failure in: evaluation of dextran-70 (Andrews et al.), 535
bypass, and thromboendarterectomy in occlusive vascular disorder, role of (Thomas), 965
functioning saphenous vein, spontaneous necrosis of (Friedman, Cerruti, and Amadeo), 1022

H

Heart, open-, surgery, importance of pulmonary veins in systemic air embolism following (Fishman, Carlsson, and Roe), 655
pulmonary ventilation during: experimental evaluation (Sapirstein and Kohari), 555
serum enzyme alterations after (Dieter, Neville, and Pifarré), 328
Heart—cont'd
valve homografts, fresh, morphology of (Kosek et al.), 269
Hemobilia, inflammatory (Seel, Yang, and Lee), 821
Hemocholecyst: report of two cases, one associated with steroid administration (Avakoff and Wolfman), 830
Hemodialysis, rapid detoxification of acute alcoholic with (Walder et al.), 201
Hemodynamic bisection of liver (Kaplan, Davies, and Field), 357
factors, role in formation of intimal changes, experimental investigations of (Gyurkó and Szabó), 871
circulatory; experimental studies in cold injury (Weatherley-White et al.), 208
of experimental dumping syndrome (Grafe and Swan), 734
renal, concentrating ability, urine flow, and sodium excretion, effect of chronic experimental unilateral renal vein hypertension on (Mullane and Gliedman), 368
Hemoglobin solution, stroma-free: "ideal" blood substitute (Peskin, O'Brien, and Rabiner), 185
Hemorrhage, massive upper gastrointestinal tract, gastric tamponade as adjunct to cooling for: preliminary report of new technique (Edlich et al.), 669
stimulation of albumin synthesis by (Malt et al.), 65
Hemorrhagic and endotoxic shock in rats, comparison of adenosine triphosphate levels in (Staples, Topuzlu and Blair), 883
shock, effect of transmembrane potential (Campion et al.), 1051
experimental, effect of low molecular weight dextran on circulatory dynamics and oxygen consumption in (Smith, Staehelin, and Jolley), 782
renal handling of insulin and growth hormone in (McCormick et al.), 175
Hepatic artery occlusion in dogs, safe (Conolly, Belzer, and Dunphy), 772
and portal vein blood to "small" and "large" tumors, distribution of: blood supply of experimental liver metastases (Ackerman et al.), 1067
metabolic efficiency and retrograde portal flow following side-to-side portacaval shunt, effect of increased outflow resistance on (Reilly et al.), 1026
preservation with chlorpromazine and phenoxybenzamine; application to liver transplantation (Fonkalsrud et al.), 23
Heparin, effect in experimental fat embolism (Ross), 765
Hepatectomized dogs studied with radioactively labeled fibrinogen, fibrinogen turnover in (Bergentz et al.), 540
Hernia(s), diaphragmatic, congenital, in neonates without increasing intra-abdominal pressure, method of repairing: ventral Silon pouch (Simpson), 798
hiatal, esophageal, in infancy and childhood, results of surgical treatment of (Cahill, Aberdeen, and Waterston), 597
inguinal, Shouldice repair for (Shearburn and Myers), 450
Herpetic sciatica (Siegel), 693

Heterograft and prosthesis: surgery for aortic valve (Levy, Vidne, and Lebinshon), 313
Heterophil antibodies in the sera of recipients in clinical renal transplantation (O'Kane et al.), 682
Hiatal hernia, esophageal, in infancy and childhood, results of surgical treatment of (Cahill, Aberdeen, and Waterston), 597
Hindgut, primitive, of human being, duplication of: 8 year follow-up of previous case report (Beach, Wright, and Deffer), 405
Homograft(s) (allografts), skin, full-thickness, in mice, microcirculatory events within (Zarem), 392
fresh heart valve, morphology of (Kosek et al.), 269
rejection, renal, canine, failure of amantadine hydrochloride to suppress (Killen, Hattori, and Zukoski), 550
failure of phytohemagglutinin to enhance azathioprine suppression of (Green, Hattori, and Killen), 704
renal, canine, second-set, prolongation of functional survival of, using antithymocyte serum: preliminary report (Braf and Hume), 594
Homotransplantation of both kidneys from anencephalic monster to 17 pound boy with Eagle-Barrett syndrome (Martin et al.), 603
Hormonal regulation of bile secretion: study in isolated, perfused liver (Pissidis et al.), 1075
Hormone(s), growth, and insulin in hemorrhagic shock, renal handling of (McCormick et al.), 175
steroid, conjugation of, by breast cancer tissue and selection of patients for adrenalectomy (Dao and Libby), 162
Humoral mediation of intestinal phase of gastric secretion and of acid hypersecretion associated with portacaval shunts (Orloff et al.), 118
Hunter, John, and cardiopulmonary resuscitation (Nolan), 611
Hydatid disease of lung, surgical treatment of (Papadimitriou), 488
Hydrogen ion content of gastric juice, effect of change on gastric mucus secretion (Wise and Ballinger), 723
Hydronephrosis, massive, with large bowel conduits, drainage of (Markland), 835
Hydrophilic protein gel, use to prevent blood clotting on prosthetic materials: blood-prosthetic interface problem (Maloney et al.), 275
Hyperbaric oxygenation and experimental frostbite (Gage, Ishikawa, and Winter), 1044
Hyperlipemia, coagulation, and fat embolism, intravascular: their association during generalized Shwartzman phenomenon in rabbits (Allardyce and Groves), 71
Hyperpyrexia, sudden, during general anesthesia (Thomford, Hamelberg, and Wiederholt), 850
Hypertension, vein, renal, unilateral, experimental, chronic, effect on renal hemodynamics, concentrating ability, urine flow, and sodium excretion (Mullane and Gliedman), 368
Hyperventilation and respiratory alkalosis, excess lactate production due to (White et al.), 250
Hypovolemic shock, insulin response during (Bauer et al.), 80

I

Ileovesical fistula in Crohn's disease (Kyle and Murray), 497
Ileus: use of sympathetic blocking agents in its treatment (Catchpole), 811
Immune reactions to neuroblastoma, implications of (Bill), 415
Immunity, transplantation, in vitro correlates of: release of substances by immune lymphocytes confronted with specific antigens (Falk, Collste, and Möller), 51
Immunochemical properties and measurement of gastrin by radioimmunoassay (Charters et al.), 104
Immunologic and virus studies with human sarcomas (Morton et al.), 152
Immunosuppression and skin allografts in treatment of massive thermal injury (Koumans and Burke), 89
Immunosuppressive drugs combined with antilymphocyte serum, allograft survival after treatment with (Grogan and Shivers), 1085
Impedance, transthoracic electrical, for early detection of pulmonary edema (Pomerantz et al.), 260
Implantation, long-term plastic tubing, into the external jugular vein for injection or infusion in the dog (Itoh et al.), 768
Implants, internal mammary myocardial, effect of ischemia on immediate flow in (DiGiglia, Lazzara, and Ochsner), 527
Infection, postoperative wound: prospective study of determinant factors and prevention (Polk and Lopez-Mayor), 97
surgical: phage patterns of *Staphylococcus aureus* isolated from tissue biopsies and wound pyogenic exudates (Heggers and Robson), 471
Inflammatory hemobilia (Seel, Yang, and Lee), 821
Inguinal hernia, Shouldice repair for (Shearburn and Myers), 450
Insulin, ammonium, and glucose after portacaval shunting (Brown, Covelli, and Brown), 383
effects of, on sugar, amino acid, and ion transport across isolated small intestine (Fromm, Field, and Silen), 145
and growth hormone in hemorrhagic shock, renal handling of (McCormick et al.), 175
response during hypovolemic shock (Bauer et al.), 80
Intensive care unit, surgical (Collins and Ballinger), 614
Intestinal ischemia, acute, myocardial effects of (Williams et al.), 138
obstruction, nonstrangulating, changes in intestinal flora in dogs with (Hicks, Baumann, and Enquist), 580
strangulated, experimental (Yale), 338
phase of gastric secretion, humoral mediation of, and of acid hypersecretion associated with portacaval shunts (Orloff et al.), 118

Intestine, small, isolated, effects of insulin on sugar, amino acid, and ion transport across (Fromm, Field, and Silen), 145
Intimal changes, experimental investigations of role of hemodynamic factors in formation of (Gyurkó and Szabó), 871
Intra-arterial balloon tamponade (Yates), 634
Intrahepatic vascular pathways in isolated perfused normal human liver with special reference to arterioportal shunt (Geumei), 319
Ion, sugar, amino acid transport, effects of insulin on, across isolated small intestine (Fromm, Field, and Silen), 145
Ischemia, acute intestinal, myocardial effects of (Williams et al.), 138
effect on immediate flow in internal mammary myocardial implants (DiGiglia, Lazzara, and Ochsner), 527
and profound selective cooling of primate brain without pump or oxygenator (White et al.), 224
Ischemic and embolic complications after anastomosis of radial artery to cephalic vein (Storey et al.), 325
necrosis of tibialis anterior muscle in burn patients: report of three cases (Asch, Flemma, and Pruitt), 846
Islet cell tumor, non-beta diarrheogenic, of the pancreas, secretin-like choleresis produced by (Tompkins, Kraft, and Zollinger), 131

J

Jugular vein, external, long-term plastic tubing implantation into, for injection or infusion in the dog (Itoh et al.), 768

K

Kidneys, homotransplantation of both, from anencephalic monster to 17 pound boy with Eagle-Barrett syndrome (Martin et al.), 603
and liver homografts, canine, modification of established rejection of, with antilymphocyte gamma-G globulin (Smith et al.), 546
Krypton^{85}, clearance of, effect of vasopressin (Pitressin) on gastric mucosal blood flow measured by (Bell and Battersby), 510

L

Lactate production, excess, due to hyperventilation and respiratory alkalosis (White et al.), 250
Lead, intraluminal, of gastric action potentials in human subjects: use of new suction-needle electrode (Shiratori et al.), 483
Leukocyte infiltration of allografts, mechanisms of; separation and early appearance of two components (Foker et al.), 42
Ligation(s), chronic inferior vena caval, experimental observations on removal of (Miller, Aberg, and Gerbode), 575
versus clip compartmentation with cardiac output and flow measurements: acute cardiovascular effects of vena cava interruption (Neeley and Allenberg), 762
Lipoma, mediastinal, in children (Kleinhaus and Ducharme), 790
Lithotomy and lithotomists: progress in wound management from Franco to Lister (Wangensteen, Wangensteen, and Wiita), 929
Liver, hemodynamic bisection of (Kaplan, Davies, and Field), 357
human, normal, perfused, isolated, intrahepatic vascular pathways in, with special reference to arterioportal shunt (Geumei), 319
and kidney homografts, canine, modification of established rejection of, with antilymphocyte gamma-G globulin (Smith et al.), 546
metastases, experimental, blood supply of: distribution of hepatic artery and portal vein blood to "small" and "large" tumors (Ackerman et al.), 1067
perfused, isolated, study in: hormonal regulation of bile secretion (Pissidis et al.), 1075
transplantation, application of hepatic preservation with chlorpromazine and phenoxybenzamine to (Fonkalsrud et al.), 23
Lung(s) allografts, canine, from cadaver donors, physiologic evaluation of (Rangel et al.), 863
hydatid disease of, surgical treatment of (Papadimitriou), 488
transplanted, of dogs, mucus transport in (Edmunds et al.), 15
Lymph node, thymic, and splenic lymphocytes, comparative in vitro and in vivo activity of antilymphocyte serum raised by immunization with (Ono et al.), 698
Lymphatic-venous fistula, treatment of lymphedema of the limbs by (Politowski, Bartkowski, and Dynowski), 639
Lymphedema of the limbs by lymphatic-venous fistula, treatment of (Politowski, Bartkowski, and Dynowski), 639
Lymphocytes, immune, confronted with specific antigens, release of substances by: in vitro correlates of transplantation immunity (Falk, Collste, and Möller), 51

M

Mammary myocardial implants, internal, effect of ischemia on immediate flow in (DiGiglia, Lazzara, and Ochsner), 527
Mediastinal lipoma in children (Kleinhaus and Ducharme), 790
Metabolic efficiency, hepatic, and retrograde portal flow following side-to-side portacaval shunt, effect on increased outflow resistance on (Reilly et al.), 1026
Metabolism of intravenously administered fat in adult and newborn dogs (Coran and Nesbakken), 922
Metastases, liver, experimental, blood supply of: distribution of hepatic artery and portal vein blood to "small" and "large" tumors (Ackerman et al.), 1067
Microangiography and angiography, comparative study of small-bowel anastomoses by (Abramowitz and McAlister), 564
Microcirculatory events within full-thickness skin allografts (homografts) in mice (Zarem), 392

Morphology of fresh heart valve homografts (Kosek et al.), 269
Mucosa, antral, anatomic pathways of vagal fibers to (Legros and Griffith), 751
Mucus secretion, gastric, effect of change in the hydrogen ion content of gastric juice on (Wise and Ballinger), 723
transport in transplanted lungs of dogs (Edmunds et al.), 15
Muscular blood supply in the leg, new ergometer for angiographic study of (Khobreh), 627
Muscle, anterior, tibialis, in burn patients, ischemic necrosis of: report of three cases (Asch, Flemma, and Pruitt), 846
Myocardial effects of acute intestinal ischemia (Williams et al.), 138
implants, mammary, internal, effect of ischemia on immediate flow in (DiGiglia, Lazzara, and Ochsner), 527
revascularization (Hattler and Sabiston), 620

N

Necrosis, ischemic, of tibialis anterior muscle in burn patients: report of three cases (Asch, Flemma, and Pruitt), 846
spontaneous, of functioning saphenous vein graft (Friedman, Cerruti, and Amadeo), 1022
Neoplasm, vesical, urethral extension of (Beebe and Persky), 687
Nerve stimulation, sinus, effects on arterial resistance and flow patterns of specific vascular beds (Resnicoff et al.), 755
Neuroblastoma, implications of immune reactions to (Bill), 415
Nonsteroid, calcitonin-like factor from adrenal gland (Kaplan, Peskin, and Arnaud), 167

O

Obstruction, intestinal, strangulated, experimental (Yale), 338
Occlusion, safe hepatic artery, in dogs (Conolly, Belzer, and Dunphy), 772
Open-heart surgery, importance of pulmonary veins in systemic air embolism following (Fishman, Carlsson, and Roe), 655
pulmonary ventilation during: an experimental evaluation (Sapirstein and Kohari), 555
serum enzyme alterations after (Dieter, Neville, and Pifarré), 328
Outflow resistance, increased, effect on retrograde portal flow and hepatic metabolic efficiency following side-to-side portacaval shunt (Reilly et al.), 1026
Oxygen consumption and circulatory dynamics in experimental hemorrhagic shock, effect of low molecular weight dextran on (Smith, Staehelin, and Jolley), 782
Oxygenation, hyperbaric, and experimental frostbite (Gage, Ishikawa, and Winter), 1044
Oxygenator or pump, profound selective cooling and ischemia of primate brain without (White et al.), 224

P

Pacemaker(s), cardiac, with systematic approach to malfunction, long-term management of: report of 37 cases (Williams and Campbell), 644
installation in pediatric patient: improved technique (Williams and Campbell), 412
pouch, cardiac, incision for (Anderson, O'Hare, and Fritz), 809
Pancreas, pseudocysts of: value of urine and serum amylase levels (Vajcner and Nicoloff), 842
secretin-like choleresis produced by diarrheogenic non-beta islet cell tumor of (Tompkins, Kraft, and Zollinger), 131
Pancreatic disease, review of (Anderson), 434
Pancreatitis, acute: experimental model (Walsky, Moore, and Howell), 746
Patch, aortic, dynamic, as permanent mechanical auxiliary ventricle: experimental studies (Sujansky et al.), 875
Pediatric patient, pacemaker installation in: improved technique (Williams and Campbell), 412
Pelvic exenteration, complicated rectal-genitourinary anomaly in newborn infant treated by (Griffen, Walton, and Cunningham), 608
Peptic ulcer problem (Harrison), 802
results of vagotomy and pyloroplasty for (Wray and Wangensteen), 502
Peritoneal lavage, antibiotics, and corticosteroids, value in treatment of experimental peritonitis (Sleeman et al.), 1060
Peritonitis, experimental, value of antibiotics, corticosteroids, and peritoneal lavage in treatment of (Sleeman et al.), 1060
Phage patterns of *Staphylococcus aureus* isolated from tissue biopsies and wound pyogenic exudates: surgical infection (Heggers and Robson), 471
Phagedenic ulcer, role of steroids in management of (Abrams), 297
Pharyngoesophageal diverticulum, carcinoma occurring in: report of three cases (Wychulis, Gunnlaugsson, and Clagett), 976
Phenoxybenzamine and chlorpromazine, hepatic preservation with; application to liver transplantation (Fonkalsrud et al.), 23
Phytohemagglutinin, failure to enhance azathioprine suppression of renal homograft rejection (Green, Hattori, and Killen), 704
Pitressin (vasopressin), effect on gastric mucosal blood flow measured by clearance of krypton^{85} (Bell and Battersby), 510
Plastic tubing implantation, long-term, into the external jugular vein for injection or infusion in the dog (Itoh et al.), 768
Portacaval shunting, gastric secretagogues following (Griffen, Slesh, and Mooney), 111
insulin, ammonium, and glucose after (Brown, Covelli, and Brown), 383
shunts, humoral mediation of intestinal phase of gastric secretion and of acid hypersecretion associated with (Orloff et al.), 118
Portal flow, retrograde, and hepatic metabolic efficiency following side-to-side portacaval shunt, effect of increased outflow on (Reilly et al.), 1026

Portal—cont'd
vein, abnormal (Hardy and Nye), 676
and hepatic artery blood to "small" and "large" tumors, distribution of: blood supply of experimental liver metastases (Ackerman et al.), 1067
Polyvinyl alcohol sponge implants, alterations of and tissue reaction to (Chen, Musser, and Postlewait), 899
Pouch, pacemaker, cardiac, incision for (Anderson, O'Hare, and Fritz), 809
Silon, ventral: method of repairing congenital diaphragmatic hernias in neonates without increasing intra-abdominal pressure (Simpson), 798
Prosthesis and heterograft: surgery for aortic valve (Levy, Vidne, and Lebinshon), 313
Prosthetic arterial grafts, prevention of early failure in: evaluation of dextran-70 (Andrews et al.), 535
materials, use of hydrophilic protein gel to prevent blood clotting on: blood-prosthetic interface problem (Maloney et al.), 275
surfaces, fetal fibroblasts as substratum for pseudoendothelial development on (Bernhard et al.), 284
Protein gel, hydrophilic, use of, to prevent blood clotting on prosthetic materials: blood-prosthetic interface problem (Maloney et al.), 275
Pseudocysts of pancreas: value of urine and serum amylase levels (Vajcner and Nicoloff), 842
Pseudoendothelial development on prosthetic surfaces, fetal fibroblasts as substratum for (Bernhard et al.), 284
Pulmonary edema, transthoracic electrical impedance for early detection of (Pomerantz et al.), 260
valvular stenosis, hemodynamics of, in chronic dogs (Michie, Schultz, and Cate), 584
veins in systemic air embolism following open-heart surgery, importance of (Fishman, Carlsson, and Roe), 655
ventilation during open-heart surgery: experimental evaluation (Sapirstein and Kohari), 555
Pump, bypass, implantable left ventricular, development and experimental evaluation of (Pierce et al.), 1034
or oxygenator, profound selective cooling and ischemia of primate brain without (White et al.), 224
Pyloroplasty and vagotomy for peptic ulcer, results of (Wray and Wangensteen), 502
Pyogenic exudates, wound, and tissue biopsies, phage patterns of *Staphylococcus aureus* isolated from: surgical infection (Heggers and Robson), 471

R

Radioactively labeled fibrinogen, fibrinogen turnover in hepatectomized dogs studied with (Bergentz et al.), 540
Radioimmunoassay, immunochemical properties and measurement by: gastrin (Charters et al.), 104
Receptors, beta-adrenergic, and gastric acid secretion (Geumei et al.), 663
Reconstructive vascular surgery, approach to fluid dynamic problems in (Malan, Noseda, and Longo), 994
Rectal-genitourinary anomaly, complicated, in newborn infant treated by pelvic exenteration (Griffen, Walton, and Cunningham), 608
Radial artery to cephalic vein, embolic and ischemic complications after anastomosis of (Storey et al.), 325
Red cell(s) mass measurement, improved experimental (Moss), 771
processed, frozen, massive transfusion of, in combat casualties: report of three cases (Moss), 1008
Rejection, homograft, renal, failure of phytohemagglutinin to enhance azathioprine suppression of (Green, Hattori, and Killen), 704
Renal autografts, induction of glomerulonephritis in (Rapaport et al.), 34
blood flow, effects of depulsation of, upon renal function and renin secretion (Many et al.), 242
handling of insulin and growth hormone in hemorrhagic shock (McCormick et al.), 175
homografts, canine, second-set, prolongation of functional survival of, using antithymocyte serum: preliminary report (Braf and Hume), 594
rejection, canine, failure of amantadine hydrochloride to suppress (Killen, Hattori, and Zukoski), 550
failure of phytohemagglutinin to enhance azathioprine suppression of (Green, Hattori, and Killen), 704
transplantation, clinical, heterophil antibodies in the sera of recipients of (O'Kane et al.), 682
vein hypertension, unilateral, experimental, chronic, effect of, on renal hemodynamics, concentrating ability, urine flow, and sodium excretion (Mullane and Gliedman), 368
Renin secretion and renal function, effects of depulsation of renal blood flow upon (Many et al.), 242
Resistance, outflow, increased, effect on retrograde portal flow and hepatic metabolic efficiency following side-to-side portacaval shunt (Reilly et al.), 1026
Resorcin-gelatin-formaldehyde glue, new, experimental studies with (Koehnlein and Lemperle), 377
Respiratory alkalosis and hyperventilation, excess lactate production due to (White et al.), 250
Resuscitation, cardiopulmonary, and John Hunter (Nolan), 611
Reticuloendothelial system in the maintenance of vascular integrity, further evidence of role of (Glass, Palmerio, and Fine), 709
Revascularization, myocardial (Hattler and Sabiston), 620
of occluded deep femoral artery, salvage of leg by (Killen), 506
Rupture, spontaneous, of esophagus presenting as acute abdominal catastrophe (Campbell and Cox), 304

S

Saline solutions, buffered: definition of moderation (Rush and Bosomworth), 461

Saphenous vein graft, functioning, spontaneous necrosis of (Friedman, Cerruti, and Amadeo), 1022
Sarcomas, human, immunologic and virus studies with (Morton et al.), 152
Sciatica, herpetic (Siegel), 693
Scrotal dimple in testicular torsion (Ger), 907
Secretagogues, gastric, following portacaval shunting (Griffen, Slesh, and Mooney), 111
Secretion, bile, hormonal regulation of: study in isolated, perfused liver (Pissidis et al.), 1075
Secretin-like choleresis produced by diarrheogenic non-beta islet cell tumor of pancreas (Tompkins, Kraft, and Zollinger), 131
Sepsis, wound, experimental, from transient *Escherichia coli* bacteremia (Howe), 570
Serum (sera), antilymphocyte, combined with immunosuppressive drugs, allograft survival after treatment with (Grogan and Shivers), 1085
effective and ineffective, preparation and in vitro assay of (Davis, Cooperband, and Mannick), 58
antithymocyte, prologation of functional survival of second-set canine renal homografts using: preliminary report (Braf and Hume), 594
enzyme alterations after open-heart surgery (Dieter, Neville, and Pifarré), 328
Shock, hemorrhagic, effect on transmembrane potential (Campion et al.), 1051
experimental, effect of low molecular weight dextran on circulatory dynamics and oxygen consumption in (Smith, Staehelin, and Jolley), 782
renal handling of insulin and growth hormone in (McCormick et al.), 175
hypovolemic, insulin response during (Bauer et al.), 80
Shouldice repair for inguinal hernia (Shearburn and Myers), 450
Shunt(s), arterioportal, intrahepatic vascular pathways in isolated perfused normal human liver with special reference to (Geumei), 319
portacaval, humoral mediation of intestinal phase of gastric secretion and of acid hypersecretion associated with (Orloff et al.), 118
side-to-side, effect of increased outflow resistance on retrograde portal flow and hepatic metabolic efficiency following (Reilly et al.), 1026
Shunting, portacaval, insulin, ammonium, and glucose after (Brown, Covelli, and Brown), 383
gastric secretagogues following (Griffen, Slesh, and Mooney), 111
Shwartzman phenomenon, generalized, in rabbits, association of intravascular coagulation, hyperlipemia, and fat embolism during (Allardyce and Groves), 71
Silastic-reinforced Dacron, evaluation of, for replacement of inferior vena cava (McCaughan), 375
Silicone rubber diffusion, chronic analgesia by (Folkman, Reiling, and Williams), 194
Silon pouch, ventral: method of repairing congenital diaphragmatic hernias in neonates without increasing intra-abdominal pressure (Simpson), 798
Sinus nerve stimulation, effects on arterial resistance and flow patterns of specific vascular beds (Resnicoff et al.), 755
Skin allografts (homografts), full-thickness, in mice, microcirculatory events within (Zarem), 392
and immunosuppression in treatment of massive thermal injury (Koumans and Burke), 89
split-thickness, donor sites, allografting (Graham), 460
Sodium excretion, renal hemodynamics, concentrating ability, and urine flow, effect of chronic experimental unilateral renal vein hypertension on (Mullane and Gliedman), 368
Sphincter, external, localization of, during operation for imperforate anus (McGovern and Trump), 1090
Splenic, thymic, and lymph node lymphocytes, comparative in vitro and in vivo activity of antilymphocyte serum raised by immunization with (Ono et al.), 698
Sponge implants, alcohol, polyvinyl, alterations of and tissue reaction to (Chen, Musser, and Postlethwait), 899
Staphylococcus aureus, phage patterns of, isolated from tissue biopsies and wound pyogenic exudates: surgical infection (Heggers and Robson), 471
Stenosis, congenital, of common duct as cause of abdominal pain and emesis (Grayer), 398
valvular, pulmonary, in chronic dogs, hemodynamics of (Michie, Schultz, and Cate), 584
Steroid(s) hormones, conjugation of, by breast cancer tissue and selection of patients for adrenalectomy (Dao and Libby), 162
role in management of phagedenic ulcer (Abrams), 297
Strangulated intestinal obstruction, experimental (Yale), 338
Stroma-free hemoglobin solution: "ideal" blood substitute (Peskin, O'Brien, and Rabiner), 185
Subclavian, carotid-, bypass: hemodynamic study (Lord and Ehrenfeld), 521
Suction-needle electrode, new, use of: intraluminal lead of gastric action potentials in human subjects (Shiratori et al.), 483
Sugar, amino acid, and ion transport, effects of insulin on, across isolated small intestine (Fromm, Field, and Silen), 145
Sump tube, gastrointestinal (Dennis), 309
Surgeon, young, and the paper patient (Dooling and Malette), 637
Surgery, fetal, in the rabbit (Thomasson and Ravitch), 1092
vascular, reconstructive, approach to fluid dynamic problems in (Malan, Noseda, and Longo), 994
Surgical and medical vagotomy (Sanders), 986
technique: upper thoracic sympathectomy (Cloward), 1120
Suture, arterial, techniques and grafts: past, present, and future (Shumacker and Muhm), 419

Sympathectomy, thoracic, upper: surgical technique (Cloward), 1120
Sympathetic blocking agents in treatment, use of: ileus (Catchpole), 811
Syndrome, dumping, experimental, hemodynamics of (Grafe and Swan), 734
Eagle-Barrett, homotransplantation of both kidneys from anencephalic monster to 17 pound boy with (Martin et al.), 603

T

Tamponade, balloon, intra-arterial (Yates), 634
gastric, as adjunct to cooling for massive upper gastrointestinal tract hemorrhage: preliminary report of new technique (Edlich et al.), 669
Teaching emergency medical care, adjunct in: television videotape recording (Peltier, Geertsma, and Youmans), 233
surgical technique by critical review of videotaped performance—surgical instant replay (Goldman et al.), 237
Television videotape recording: adjunct in teaching emergency medical care (Peltier, Geertsma, and Youmans), 233
Tendons, flexor, injured, some studies on effects of β-aminopropionitrile in patients with (Peacock and Madden), 215
Tensile strength of healing wounds, effect of chronic anemia on (Hugo et al.), 741
Teratoma, gastric, in newborn infant: total gastrectomy with survival (De Angelis), 794
Testicular torsion, scrotal dimple in (Ger), 907
Thoracic sympathectomy, upper: surgical technique (Cloward), 1120
Thromboembolism, recurrent: report of a case and inquiry into the nature of the fast antiplasmin (Gans et al.), 1014
Thromboendarterectomy and bypass graft in occlusive vascular disorders, role of (Thomas), 965
Thymic, splenic, and lymph node lymphocytes, comparative in vitro and in vivo activity of antilymphocyte serum raised by immunization with (Ono et al.), 698
Tibialis anterior muscle in burn patients, ischemic necrosis of: report of three cases (Asch, Flemma, and Pruitt), 846
Tissue reaction to and alterations of polyvinyl alcohol sponge implants (Chen, Mussar, and Postlethwait), 899
Torsion, testicular, scrotal dimple in (Ger), 907
Tract, genitourinary, and anus, duplication of (Smith), 909
Transfusion, massive, of frozen processed red cells in combat casualties: report of three cases (Moss), 1008
Transmembrane potential, effect of hemorrhagic shock on (Campion et al.), 1051
Transplantation immunity, in vitro correlates of: release of substances by immune lymphocytes confronted with specific antigens (Falk, Collste, and Möller), 51
liver, application of hepatic preservation with chlorpromazine and phenoxybenzamine to (Fonkalsrud et al.), 23
renal, clinical, heterophil antibodies in the sera of recipients in (O'Kane et al.), 682
Transplanted lungs of dogs, mucus transport in (Edmunds et al.), 15
Transthoracic electrical impedance for early detection of pulmonary edema (Pomerantz et al.), 260
Traumatic false aneurysm of the cervical internal carotid artery (Deysine, Adiga, and Wilder), 1004
Tubing, plastic, long-term implantation into the external jugular vein for injection or infusion in the dog (Itoh et al.), 768
Tumor, diarrheogenic non-beta islet cell, of pancreas, secretin-like choleresis produced by (Tompkins, Kraft, and Zollinger), 131
Tunneling device, improved, for vascular reconstruction (Jackson), 807

U

Ulcer, peptic, problem (Harrison), 802
results of vagotomy and pyloroplasty for (Wray and Wangensteen), 502
phagedenic, role of steroids in management of (Abrams), 297
Ulcerative colitis, nonspecific (Hawk, Turnbull, and Schofield), 953
Urethal extension of vesical neoplasm (Beebe and Persky), 687
Urine flow, renal hemodynamics, concentrating ability, and sodium excretion, effect of chronic experimental unilateral renal vein hypertension on (Mullane and Gliedman), 368

V

Vagal factor in cholecystitis (Schein et al.), 345
fibers, anatomic pathways of, to antral mucosa (Legros and Griffith), 751
Vagotomy, effect on biliary pressure (Williams and Huang), 353
medical and surgical (Sanders), 986
and pyloroplasty for peptic ulcer, results of (Wray and Wangensteen), 502
Valve, aortic, surgery for: prosthesis and heterograft (Levy, Vidne, and Lebinshon), 313
homografts, fresh heart, morphology of (Kosek et al.), 269
Valvular stenosis, pulmonary, in chronic dogs, hemodynamics of (Michie, Schultz, and Gate), 584
Vascular beds, specific, effects of sinus nerve stimulation on arterial resistance and flow patterns of (Resnicoff et al.), 755
disorders, occlusive, role of thromboendarterectomy and bypass grafts in (Thomas), 965
integrity, further evidence of role of reticuloendothelial system in maintenance of (Glass, Palmerio, and Fine), 709
pathways, intrahepatic, in isolated perfused normal human liver with special reference to arterioportal shunt (Geumei), 319
reconstruction, improved tunneling device for (Jackson), 807
Vasopressin (Pitressin), effect on gastric mucosal blood flow measured by clearance of krypton^{85} (Bell and Battersby), 510
Vena cava (I), inferior, alternate surgical approach to (Moran), 631
evaluation of Silastic-reinforced Dacron for replacement of (McCaughan), 375

Vena cava—cont'd
interruption, acute cardiovascular, effects of: ligation versus clip compartmentation with cardiac output and flow measurements (Neeley and Allenberg), 762
ligations, inferior, chronic, experimental observations of removal of (Miller, Aberg, and Gerbode), 575
Venous bleeding, effect of external counterpressure on (Ludewig and Wangensteen), 515
lymphatic-, fistula, treatment of lymphedema of limbs by (Politowski, Bartkowski, and Dynowski), 639
Vein(s), cephalic, embolic and ischemic complications after anastomosis of radial artery to (Storey et al.), 325
graft, saphenous, functioning, spontaneous necrosis of (Friedman, Cerruti, and Amadeo), 1022
jugular, external, long-term plastic tubing implantation into, for injection or infusion in the dog (Itoh et al.), 768
portal, abnormal (Hardy and Nye), 676
and hepatic artery blood to "small" and "large" tumors, distribution of: blood supply of experimental liver metastases (Ackerman et al.), 1067
pulmonary, in systemic air embolism following open-heart surgery, importance of (Fishman, Carlsson, and Roe), 655
renal, hypertension, unilateral, experimental, chronic, effect of, on renal hemodynamics, concentrating ability, urine flow, and sodium excretion (Mullane and Gliedman), 368
Ventilatory support (Andersen), 1112
Ventricle, permanent mechanical auxiliary, dynamic aortic patch as: experimental studies (Sujansky et al.), 875
Ventricular bypass pump, left, implantable, development and experimental evaluation of (Pierce et al.), 1034
Vesical neoplasm, urethral extension of (Beebe and Persky), 687
Vesicoileosigmoidostomy in treatment of exstrophy (Hays, Powell, and Strauss), 1103
Videotape(d) performance, teaching surgical technique by critical review of—surgical instant replay (Goldman et al.), 237
recording, television: adjunct in teaching emergency medical care (Peltier, Geertsma, and Youmans), 233
Virus and immunologic studies with human sarcomas (Morton et al.), 152

W

Wound(s), healing, effect of chronic anemia on the tensile strength of (Hugo et al.), 741
management from Franco to Lister, progress in: lithotomy and lithotomists (Wangensteen, Wangensteen, and Wiita), 929

Z

Zollinger-Ellison syndrome in seven-year-old boy: case report (Cathcart, Webb, and Othersen), 401
